

13th International Conference on Sustainable Waste Management & Circular Economy and IPLA Global Forum 2023

📅 29th Nov - 2nd Dec 2023

📍 K J Somaiya Institute of Management, Mumbai, India

About Conference

Resource exploitation, waste generation and increased emission are impacting nature and life on the earth. Nearly 2.1 billion tonnes of waste generation at present are estimated to reach a colossal dump of 3.4 billion tonnes by 2050 while India contributes to 12% with 17.7% global population and 2.4 % of total world surface area. Increase in global mean temperature creating problems in human civilisation. To achieve sustainable development goals and make the world comfortable for the next generations we have to change the consumption patterns to reduce waste generation with resource efficiency and convert waste into valuable products decarbonising the processes. The overall aim of the 13th IconSWM-CE & IPLA GF 2023 is to facilitate discussions and knowledge sharing among various stakeholders such as, the government, academic and research institutes, industries, Urban Local Bodies (ULBs), NGOs, and other interest groups from various countries to address above issues involving 800 delegates from nearly 60 countries.
